APRIL PROGRAM: EAGAN

Our speaker for April is Peter J. Olin, Director of the Minnesota Landscape Arboretum in Chaska, MN. Peter Olin will give a PowerPoint presentation about the Arboretum and will show slides of “Spring at the Arboretum”. The University of Minnesota Landscape Arboretum is one of Minnesota’s treasures with an abundance of innovative landscaping ideas and marvelous presentations of Minnesota-hardy plant varieties (both traditional and experimental). Under Peter’s guidance, the Arboretum has grown significantly in acreage (now 1047 acres), visitors (271,000), and members (19,000), and in the number and types of gardens and activities presented. It has become one of the major public gardens of the Midwest, with strong educational programs, model gardens, and the Horticultural Research Center. Some highlights of his tenure include the construction of the new Children’s Learning Center Addition, the Horticulture Therapy Lab, the addition to Andersen Horticultural Library, as well as the creation of the Spring Peeper Meadow, a frequently cited wetland restoration, model parking lot and roadside planting, and currently under construction, a model parking lot rain garden and a runoff model. Additionally, there are family programs, new adult education opportunities, an urban youth program, native landscape restoration, and international programs with Russian and Estonian gardens.

In addition to his duties as Director, Peter is an adjunct professor in landscape architecture (having also been department chair), as well as full professor in the Department of Horticultural Science. He is a frequent speaker on issues in landscape architecture, arboretum management, and fund-raising, in addition to consulting for arboreta around the country. In 1993, the American Society of Landscape Architects (ASLA) named Olin a Fellow. He is also a former president of the Minnesota Chapter of the ASLA and past president of the Council of Educators in Landscape Architecture (CELA).

MAY PROGRAM: ROSEVILLE

Global food shortage vs. global food surplus. A contradiction in terms. What are the issues behind this situation. Experts would agree that there is more than enough food on the planet to feed everyone. In fact in a recent study, one expert calculated that there is enough food to feed every person 2800 calories a day. Yet, despite this, 1 billion people on the planet are malnourished, 40,000 children die every day from starvation and starvation related illnesses.
Our speaker for May is someone who deals with this problem on a regular basis. Brian Molohon, from Feed My Starving Children, a Christian international food relief agency, will discuss the many facets of the global hunger issue, as well as, share the Feed My Starving Children story and how they are positively impacting thousands of children by the meals they provide. Last year Feed My Starving Children shipped 16 million highly nutritious packaged meals, many prepared by volunteers in the Twin Cities, to children in 38 countries around the world.

ADDRESS CORRECTIONS

Please send permanent address changes to Jack Farber addressed to the VIP Club at the address given on the label page of the Newsletter. Also, please remember that for temporary changes the U.S. Postal Service will forward your mail.

PRESIDENT'S MESSAGE

From: Bernie Jansen

Over the past several years our program chairmen have done an outstanding job in procuring excellent and interesting programs for our membership. Unfortunately our March program in Roseville did not meet this standard and in behalf of the VIP board I apologize for the quality of this program. The March 8th program featured an extended review by Joel Long of the book Stolen Valor. Joel was a helicopter-gunship commander during the Vietnam War and flew 700 combat missions in Vietnam. The authors of Stolen Valor, B.G. Burkett and Glenn Whitely, researched the Vietnam War era and concluded that the Vietnam Generation was robbed of its heroes and its history. Mr. Long attempted to elaborate on this theme with excerpts from the book but was not able to validate his views. There were approximately 40 VIP Club members in attendance.

As noted in the past two issues of the Newsletter, Unisys will host the Annual “Volunteer Recognition Breakfast” for members of the VIP Club on Wednesday, April 19th at Unisys, Roseville. Volunteers, please complete and return the survey form and be recognized for your charitable and civic efforts. Member’s response to this year’s 2005 survey is lagging significantly behind that of previous years. To date, approximately half as many members have responded to the survey and the expected attendance at the breakfast is less than 40 versus last year’s attendance by 70 members. As previously noted, all members who submit the “Volunteer Hours Survey Form for the Year 2005” are invited to the recognition breakfast. Details for completing the survey are provided in the form provided on page 7 of this Newsletter.

As part of our ongoing support of the Lockheed Martin Legacy History project, the VIP Club Board in February approved a $100 donation to the Charles Babbage Institute. Also as part of the Club’s support of the LM Legacy project, Lowell Benson, VIP Club Director, has created a web-site which will enable interested Club members and others to review the project status and access the compiled data. See LEGACY NEWS UPDATE on page 4 for more detail.

Respectfully, Bernie Jansen, VIP Club President

From the Editors

Brian Berggren (651-451-9009) & Joe Schwaerz (651-698-9698)

### IN REMEMBRANCE

Deeb, Edward P. "Sonny" - Age 84 of West St. Paul. Passed away peacefully on December 19, 2005 with his family at his side. He is survived by loving wife of 59 years, Katie. Ed was a long time Univac/Sperry employee who retired in the mid 1980s.

Heer, Johanna H. - Age 72 of Brooklyn Center, MN. She is survived by her loving husband, Bill. Bill is a Univac retiree and long time member of the VIP Club.

Jacobson, Robert L. "Bob" - Age 75, of Prior Lake, MN (formerly of Bloomington). Bob passed away peacefully at home February 27. He is survived by his wife of 50 years, Beverly. Bob worked for Univac and Unisys for 24 years, retiring in 1986.

Jaspersen, Frank M. - Age 74 of Woodbury, MN. Frank passed away on 2/19/2006. He is survived by his wife, Jean (McNeely). Frank was a long time member of the VIP Club.

Kellenbenz, Jerry - Age 71, died of congestive heart failure on March 5, 2006 at his home in Camino, CA. As a programmer and systems analyst Jerry worked at Sperry Univac, Burroughs, and other companies. Jerry is survived by his wife, Shirley.

Prazak, Dale C. - Age 69 of Lindstrom, Mn. gently closed his eyes On February 13, 2006. He is survived by loving wife of 48 years, Marlene (Anderson). Dale retired from Unisys in 1991.

### HEALTH ISSUES

When Medicare news shows up first in the business section of the newspapers, it only reconfirms that healthcare is becoming more controlled by marketing and economic concerns than by medical and quality issues.

Two different problems surface. First, business models require sufficient profitability before need, quality, or effectiveness – manufacturers have some product to sell. Second, the business model requires access to groups with a desire for service – providers have some product to install or procedure to perform.

Several recent articles inform us. Back on 10 February the Pioneer Press (PP) business section tells us that Medtronic would benefit from Congress’ approval of ultrasound screening for abdominal aortic aneurysms. This procedure will be available in 2007 to men 65 and over who have smoked over 100 cigarettes in their lifetime, plus women with a family history of such aneurysms. No cost was mentioned, but if it is expected to help Medtronic’s bottom line, the procedure is probably not free.

Next are the articles on bariatric surgery, the stomach stapling and bypass procedures used to treat obesity (USA Today 2/22, StarTrib 3/8). Medicare will now cover three forms of the $20,000 procedure if done in “high-volume centers” and the patient also has diabetes, sleep apnea, or heart disease. The past president of the American Society for Bariatric Surgery said it would then cost less to care for this patient group. The StarTrib article goes on to identify problems such as the need for taking vitamin and mineral supplements for life and the
almost-sure likelihood of never reaching ideal weight and remaining overweight or obese.

Medtronic’s quarterly report said their defibrillators boosted profits 23 percent. Sales of the devices rose 21 percent. Last year Medicare added defibrillators as a covered product for those whose cardiologists thought they might benefit. In the past, the product was installed mostly in those who had experienced a cardiac event.

**Spending**

In February USA Today reported healthcare spending could consume 20 percent of the GDP by 2015; that is projected to be $4 trillion or $12,320 per person annually (in 2004 the number was 16 percent). Remember, your Medicare Part B premiums have also taken a bigger bite of your money. The Part B premium was only $50 in 2001 and is now $88.

The 11 March Wall Street Journal has Fidelity Investments projecting that a 65-year-old couple, with no employer-provided benefits, would need $200,000 for out-of-pocket healthcare costs. In the same piece the Employee Benefit Research Institute estimates a couple would need twice as much if they live past 80.

EBRI estimates $444,000 would be needed to get to 90 and $778,000 to 100. The life expectancy numbers reported by the American Society of Actuaries say “a 65-year-old man has a 50% chance of being alive at age 85 and a 25% chance of making it to 92.” A 65-year-old woman has a 50% chance of reaching 88 and a 25% chance for 94.

**Medicare Part D**

The Medicare regional equity problem is now demonstrated by the low numbers in the Midwest who have enrolled in Part D. Jeremy Olson’s 28 February article in the PP titled “State Lags in Seniors’ Drug Coverage” leads by saying that according to the Kaiser Family Foundation Minnesota ranks 45th in the nation in the number of elderly and disabled who have prescription drug coverage. Nationally, 59% of Medicare beneficiaries have drug coverage, but only 45% of Minnesotans.

States with the highest numbers are: Hawaii at 73%; California at 71%, and Arizona at 68%. Olson also lists the states with the lowest enrollment numbers: Minnesota at 45%, Wyoming at 44%, Montana at 41%, Iowa at 40%, S. Dakota at 40%, and N. Dakota at 37%. Only Nebraska from our Medicare region has a higher percentage than Minnesota.

The Senior Federation did some cost comparisons of seven drugs through Part D plans (UCare in St. Paul and Citrus Care in Dade County, Florida). The UCare Part D annual premium is $373, while the Citrus Care premium is $4.56 (38c/mo). The annual cost in St. Paul, for the seven drugs, would be $3,229 and in Florida $252 (the retail cost of the drugs-$5,034). The Citrus Care plan even covers generic drug costs in the donut hole.

An even uglier statistic came out of Medicare average reimbursement per enrollee rate by county map. As I’ve mentioned before, our seven state region contains 91% of the most poorly reimbursed states in the nation. Most of the counties are reimbursed at averaged rates below $670, with some to $739 (Hennepin County is at $685 vs. $1,033 for Dade County). Of the nations 3,102 counties, 1,457 are in the bottom class and 445 in the next class. There are only 5 counties, like Dade, that average $1,010 and higher, plus another 170 counties averaging $851 to $1009.

With low enrollment and low reimbursement, our region will surely see Part D premiums rise significantly and some of our plans fold. Dade County has 53 plans, of which 51 have no health plan premium and 38 have no Part D premium. St. Paul has 17 plans, of which 6 have no health plan premium and 1 has no Part D premium. Submitted by Brian Berggren.

**LEGACY NEWS UPDATE**

**LEGACY NEWS UPDATE**

**Support for Charles Babbage Institute (CBI) at the University of Minnesota** - The VIP Club Board has decided to express its gratitude in tangible form to the CBI (http://www.cbi.umn.edu) for their assistance in support of the Legacy History project. Board President Bernie Jansen has sent a letter to Dr. Arthur Norberg, Director of CBI, reiterating our thanks and making a $100 contribution to CBI, thereby becoming a “Friend of CBI.” As of Friend of CBI, the VIP Club will receive a free subscription to Annals of the History of Computing and the CBI Newsletter.

**Email List Compiled for Retirees Interested in Legacy Project** - Dick Olson has compiled a list of email addresses for those retirees who have given him their email addresses and are interested in the Legacy History project. His original list of about 100 was recently augmented by another 60 who are retirees from the ATM (Air Traffic Management) group. Dick will be sending the compiled list to all list members, who should encourage other interested retirees (not on the list) to participate.

**Interested Group in Arizona** - A group of retirees in and around Mesa, AZ have shown considerable interest in the Legacy project. The group is a mix of permanent AZ residents and snowbirds who hold an
annual soon-to-happen spring get-together with up to 45 in attendance. Their interest and input to our legacy history will be discussed. They have already made some excellent contributions and we are expecting more. The point of contact for Arizona is Jim Rapinac (EISENHUT@aol.com).

**History Sources besides Retirees** - Retirees and longer term active employees are remarkably good sources for our legacy history project, but there are other sources with perhaps a more objective view. The archives of the Babbage Institute have already been explored in a cursory fashion, and several books in the popular press have already been mentioned in this newsletter. Additionally, we have paid visits to some local history organizations which have maintained files on our company (under its various names). So far, we have explored the files of both the Dakota County Historical Society and the Eagan Historical Society. Both were very interested in our effort and hope that we can, in return, provide information to supplement their files.

We found articles on various topics such as the company decision to move from St. Paul to Eagan, the construction of Plant 8 (both initial construction in the late 60s and expansion in the mid 70s), complaints by neighbors of noise during construction of the Semiconductor Building, announcements of workforce expansion/contraction, bargaining unit issues, and of course major program wins.

**Legacy History Draft Website** - Lowell Benson, VIP Club director, is the VIP Club committee chairman for the Legacy History project. As a catalyst to move this project along, Lowell has created a "rough draft" website as a link off his personal website. The URL is [http://www.usfamily.net/web/labenson/Legacy.htm](http://www.usfamily.net/web/labenson/Legacy.htm). You are encouraged to take a look at this starting point and offer your feedback to Lowell at labenson@usfamily.net. We thank you in advance.

**Memory Jogger Question** - We are trying to determine with our traditional inordinate degree of precision just when Plant 1 was built and when Univac began operations there. Does any reader out there have the incontestable, irrefutable, incontrovertible answer? Email the data to Richard Lundgren at rflundgr@aol.com. A reward will be available. Submitted by Richard Lundgren.

### TRAVEL

**TASTE OF EUROPE**

Come join the [UNISYS LOCKHEED MARTIN VIP CLUB](http://www.usfamily.net/web/labenson/Legacy.htm) on a delightful three-day motor coach tour to House on the Rock in Wisconsin. The doors are open for us to explore this incredible home and the marvelous collections. Everything you heard about House on the Rock is true. It’s an experience you’ll want to relive again and again. Then we’ll step back in time at Little Norway, enjoy a delightful Swiss get-together in New Glarus, and cruise on the Mississippi River. Four delicious meals are also part of our tour, plus much more!

Make plans for this wonderful spring getaway, leaving May 16 and returning May 18, 2006. Your tour includes deluxe motor coach transportation, fine hotel accommodations, baggage handling, sightseeing admissions, four meals, and a professional tour director. The cost is $449 per person. For more information please call [ROGER GILLETTE](612-926-7214 or E-mail him at rg5628@hotmail.com).

**ALASKAN BONUS CRUISE**

On September 2nd, the MS Zuiderdam will set sail from Vancouver, British Columbia for Alaska for seven days. Prices start at just $1149 per person (pp) for the first and second passengers; third and fourth adults in the same cabin cost $599 pp, children under age 18 just $399 pp (+ taxes). Because this is a Group Booking, you not only get special reduced rates, but a Bonus Package worth $100. This includes one 8x10 photo, 2 bottles of wine, and reservations at their exclusive on-board restaurant, The Pinnacle. Other features include a casino, movie theatre, art auctions, free supervised programs for children up to age 18, and much more.

This 5-Star Holland America ship will take you through breathtaking Glacier Bay, and make stops in the towns of Juneau, Ketchikan and Skagway.

**Truly a dream vacation in every way.** Phone or email for details or a brochure. [Yvonne Cecchini, 651-437-9278 or yceccini@earthlink.net](mailto:yceccini@earthlink.net).

**THE LIGHTER SIDE**

The following are from a book called Disorder in the American Courts, and are things people actually said in court, word for word, taken down and now published by court reporters that had the torment of staying calm while these exchanges were actually taking place.

**ATTORNEY:** What is your date of birth?

**WITNESS:** July 18th.

**ATTORNEY:** What year?

**WITNESS:** Every year.

**ATTORNEY:** What gear were you in at the moment of the impact?

**WITNESS:** Gucci sweats and Reeboks.

**ATTORNEY:** This myasthenia gravis, does it affect
your memory at all?
WITNESS: Yes.
ATTORNEY: And in what ways does it affect your memory?
WITNESS: I forget.
ATTORNEY: You forget? Can you give us an example of something you forgot?

ATTORNEY: How old is your son, the one living with you?
WITNESS: Thirty-eight or thirty-five, I can't remember which.
ATTORNEY: How long has he lived with you?
WITNESS: Forty-five years.

ATTORNEY: What was the first thing your husband said to you that morning?
WITNESS: He said, "Where am I, Cathy?"
ATTORNEY: And why did that upset you?
WITNESS: My name is Susan.

ATTORNEY: Do you know if your daughter has ever been involved in voodoo?
WITNESS: We both do.
ATTORNEY: Voodoo?
WITNESS: We do.
ATTORNEY: You do?
WITNESS: Yes, voodoo.

ATTORNEY: Now doctor, isn't it true that when a person dies in his sleep, he doesn't know about it until the next morning?
WITNESS: Did you actually pass the bar exam?

ATTORNEY: The youngest son, the twenty-year-old, how old is he?
WITNESS: Uh, he's twenty.

ATTORNEY: Were you present when your picture was taken?
WITNESS: Would you repeat the question?

ATTORNEY: So the date of conception (of the baby) was August 8th?
WITNESS: Yes.
ATTORNEY: And what were you doing at that time?
WITNESS: Uh....

ATTORNEY: She had three children, right?
WITNESS: Yes.
ATTORNEY: How many were boys?
WITNESS: None.
ATTORNEY: Were there any girls?

ATTORNEY: How was your first marriage terminated?
WITNESS: By death.
ATTORNEY: And by whose death was it terminated?

ATTORNEY: Can you describe the individual?
WITNESS: He was about medium height and had a beard.
ATTORNEY: Was this a male or a female?

ATTORNEY: Is your appearance here this morning pursuant to a deposition notice which I sent to your attorney?
WITNESS: No, this is how I dress when I go to work.

ATTORNEY: Doctor, how many of your autopsies have you performed on dead people?
WITNESS: All my autopsies are performed on dead people.

ATTORNEY: ALL your responses MUST be oral, OK? What school did you go to?
WITNESS: Oral.

ATTORNEY: Do you recall the time that you examined the body?
WITNESS: The autopsy started around 8:30 p.m.
ATTORNEY: And Mr. Denton was dead at the time?
WITNESS: No, he was sitting on the table wondering why I was doing an autopsy on him!

ATTORNEY: Are you qualified to give a urine sample?
WITNESS: Huh?

ATTORNEY: Doctor, before you performed the autopsy, did you check for a pulse?
WITNESS: No.
ATTORNEY: Did you check for blood pressure?
WITNESS: No.
ATTORNEY Did you check for breathing?
WITNESS: No.
ATTORNEY: So, then it is possible that the patient was alive when you began the autopsy?
WITNESS: No.
ATTORNEY: How can you be so sure, Doctor?
WITNESS: Because his brain was sitting on my desk in a jar.
ATTORNEY: But could the patient have still been alive, nevertheless?
WITNESS: Yes, it is possible that he could have been alive and practicing law.

Cut out and Mail this form to: Bernie Jansen 848 Ivy Lane Total Hours _____________

Eagan, MN 55123-2425

Survey results will be published in the VIP Club Newsletter.
The VIP Recognition Breakfast will be at 8:30a.m. on April 19th at Unisys, Roseville.
Your Volunteer Survey Form must be received by April 8th for you to be listed in the Breakfast Program.
Please indicate how many will attend the volunteer breakfast. Enter 0, 1 or 2:____.
Directions to Eagan Community Center. Take Hwy 35E south or north to Pilot Knob Road. Turn left (north) on Pilot Knob Road. Turn left on Central Parkway (which is also the North entrance to Lockheed). The Eagan Community Center is at 1501 Central Parkway.

Directions to Unisys in Roseville. Take Hwy 35W south, or north, to the Industrial Way / St. Anthony Blvd off ramp. If coming north or south on Hwy 35E go west on Hwy 36 which will take you to the Industrial Way / St. Anthony Blvd. off ramp of 35W (Hwy 36 becomes Hwy 35W where it joins Hwy 35W). Go north on St. Anthony Blvd. to Walnut St. (the first street on the right). Turn right and go to Highcrest Road. It is the first place where you can turn left. Past the stop sign, Bldg 3 is on the right. Gate 5 is in the center of the building. From Hwy 280 northbound, use left lane exit just past Cty Rd B for Terminal road access (St Croix St.). Turn left at Terminal Rd, then turn right at Highcrest Rd to building entrance.
