APRIL VOLUNTEER BREAKFAST

NOTE; CHANGE OF DATE AND LOCATION

April will feature the Volunteer Breakfast at the **Tri City American Legion on April 15 AT 8:30 a.m.** Therefore, **no evening meeting or program** is scheduled on April 8th. The Tri City American Legion is located at 400 Old Highway 8, in New Brighton. (Directions listed on survey form (Page 7). All those who respond to the 2008 Volunteer Survey are invited to attend the Breakfast. The breakfast program will include a presentation by humorist, Al Batt. In his presentation he will share with us inspired stories and thoughts flushed from the thicket of a Minnesota mind. Al is from rural Minnesota and is a writer, speaker, storyteller, and humorist. Al, who was born and raised on a farm near Hartland, lives in the Batt Cave with his wife Gail. Al writes three weekly humor and nature columns for many newspapers and does a regular radio show about nature on a number of radio stations. Al also writes a number of popular cartoon strips that are syndicated nationally and has written jokes for a former President of the United States

MAY PROGRAM: EAGAN

FOOD! We can all relate to that subject, but the May program isn't a pitch for the best restaurants in different categories. You can find that almost anywhere. The program is about the food industry and the history that got it to where it is today and where it might be headed in the future. The grocery business isn't just mom and pop stores, wholesaling, and retailing. It's a far reaching network of growers, suppliers, transporters, warehouses, and more. And who better to give us the historical

perspective than Mike Schwartz who started at age 16 by cleaning the Bakery at Lueken's Village Foods in Bemidji and today is Store Manager for the Byerly's store in Eagan. His experience has taught him the most important principles of the grocery business that he'll share with us in this program.

Mike Schwartz started at the bottom in Bemidji in 1993 and ended up today in a top position at a prestigious grocery store in Eagan, MN. As with many careers, there were several yoyos in between with regard to position, both organizationally and geographically. At Lueken's, Mike learned the importance of delivering strong customer service and selling quality products to customers. On top of these basics he learned to value strong ethics and public involvement that made the business a significant contributor to the betterment of the local community. At Lunds and Byerlys (Lunds acquired Byerly's in 1997) Mike "fell in love with the organization for its incredibly knowledgeable and professional staff, putting forth the highest quality products and service in the entire industry." And recently the issue of food safety and security has been added to Mike's concerns. Join us for an insider's perspective on this industry that we depend on and typically take for granted on a weekly basis.

NOTICE to VOLUNTEERS
VOLUNTEER SURVEY FORMS
ARE DUE BY APRIL 3, 2009;
(SEE PAGE 7)
VOLUNTEER BREAKFAST IS ON
APRIL 15TH

PRESIDENT'S MESSAGE
From: Tom Turba

Jim Klobuchar, our speaker at the March meeting, kept us entertained with stories from different parts of his life including his encounter with Ginger Rogers here in the Twin Cities. He also told us about his trips to various countries, the poverty and poor living conditions, and how lucky we are. But, he also talked about the ray of hope that micro-financing is showing in impoverished regions where a small amount of money is given to a small group of entrepreneurial people, normally women, who use the money to enhance what they are doing. Decisions on how the money is used are made as a group and everyone is accountable for the money they are given. In the process, they learn how to manage money and work together. The end result is that they improve their lives, become more educated, become happier, become more productive, and improve the lives of their children and the community they live in.

Remember, if you have done volunteer service in the last year and have not already sent in your hours electronically or with the form in the newsletter, please do so right away so we can recognize them at the Volunteer Recognition Breakfast on Wednesday, April 15th. I hope to see you there. Respectfully, Tom Turba, VIP Club President

ADDRESS CORRECTIONS

Please send permanent address changes to Quintin Heckert addressed to the VIP Club at the address given on the label page of the Newsletter. Also, please remember that for temporary changes the U.S. Postal Service will forward your mail.

DINING CLUBS & GROUPS

Breakfast groups and get-togethers:

One breakfast group meets monthly at 9:00 a.m. on the 2nd Wednesday of each month at the Tri-City American Legion, Old Hwy 8, New Brighton. Phone: 763-416-3903.

Another breakfast group meets monthly at 8:00 a.m. on the 1st Thursday of each month at Joseph's Grill, 140 South Wabasha, (Wabasha and Plato) St. Paul. Phone: 651-222-2435.

Luncheon Groups & Dinner Clubs:

One Unisys Luncheon group meets monthly on the 2nd Wednesday at 11:00 a.m. at the Old Country Buffet, Holly Shopping Center, located at University Ave. and Mississippi St. just north of I-694. For information call 651-552-1465.

Another Luncheon group (engineering/drafting) meets monthly on the 1st Tuesday at 11:00 a.m. at the Old Country Buffet at 2000 S. Robert, West St. Paul. For information call 651-456-0750.

And another Luncheon group (Unisys and Burroughs) meets monthly on the 2nd Tuesday at 11:30 a.m. at the Mall of America 3rd floor North Food Court. We sit at the tables between the elevator and Burger King. For information call 952-854-7855.

Dinner Club. A Unisys Dinner Club meets monthly, from September through April, on the 4th Wednesday at 5:00 p.m. at Champs located at 35E and Larpenteur Avenue.

IN REMEMBRANCE

Allert, Charles H. - Age 88 of St. Paul, MN. He passed away Feb. 26th 2009. He is survived by his loving wife, Hazel. Charles retired from Univac after 34 years of service. Charles was a VIP Club member.

Bennek, Robert A. - Age 83, of Columbia Heights. Bob passed away in February of 2009. He is survived by his wife, Florence. Robert was a long time member of the Univac Controller's Department retiring in 1981

Larson, Kenneth E. - Passed away on February 25, 2009 in Burnsville, MN. He is survived by his wife, Janie. Kenneth was a long time employee of Unisys.

Oehlenschlager, John Gary Age 68, of Nimrod, MN passed away on 2/2/2009 at his home near Nimrod, MN. John worked for Sperry Univac (under their many names) in Arlington, VA, and Eagan, MN for 20 years as a staff engineer. He retired from Lockheed Martin in 1999.

Ott, John Thomas - Age 82, of Lakeville, MN passed away February 16, 2009. John retired in 1986 from Sperry Univac. He is survived by his loving wife, Eunice. John was a long time member of the VIP Club.

Redman, David L. - Age 73, of Woodbury, MN died February 9, 2009. He is survived by loving wife, Virginia. David retired after working 25 years for Unisys.

Zachau, Frederick William "Fred" - Age 78, Of Oakdale, MN passed away February 21, 2009. He is survived by wife, Pat. Fred was retired from Lockheed Martin.

ANNOUNCEMENTS

2009 VOLUNTEER RECOGNITION BREAKFAST

NOTE: CHANGE OF DATE AND PLACE.

On April 15th the VIP Club will host the annual Recognition Breakfast for VIP Club members who performed volunteer services in 2008. The month of April is National Volunteer Month and our Breakfast honors all VIP Club members who perform volunteer services where they reside. We thank all VIP Club members for the many hours of volunteer services you provide each year. Last year, the 121 VIP Club

members who responded to our Survey, donated approximately 24,500 hours to various organizations in Minnesota, Arizona, Illinois, Nevada, North Carolina, Texas, and Wisconsin. Sixty-five members and guests attended the Breakfast and we hope this many or more will attend this year. Please note that all members who respond to the "Volunteer Survey" are invited to attend the Breakfast. Breakfast will begin at 8:30 A.M. at the Tri City American Legion Hall. Directions to the hall are shown at the bottom of the survey form on page 7. The entertainment for the Breakfast will feature Professional writer, storyteller, and humorist, Al Batt. In his presentation he will share with us inspired stories and thoughts flushed from the thicket of a Minnesota mind. Please provide your survey responses by April 3rd in one of three ways as detailed in the "**VIP CLUB Volunteer Hours Survey Form for Year 2008**" provided on page 7 of this Newsletter.

Thank you, I look forward to seeing all of you at the Volunteer Recognition Breakfast. Submitted by Bernie Jansen.

E-news NEWS, APRIL 2009

Thank you to the 216 Club members who have signed up for electronic newsletters notifications. At our March 4th Board meeting, we decided to make both an electronic and paper distribution of our April newsletter in order to 'shake out' our e-mailing methodology. If you previously signed up and didn't receive the newsletter in both forms by April 1st, please check your spam blocker to assure that it accepts mail distribution from either newsletter@vipclubmn.org or webmaster@vipclubmn.org. If you haven't signed up for E-news yet or haven't received an e-mail invitation from either of those two sources by 31 March, please send a **YES** note asking for electronic delivery of the May and ensuing newsletter issues - or you can opt out of electronic delivery by sending a NO message to either of the above e-mail addresses. Some recent newsletter electronic copies are available on-line in <http://vipclubmn.org/archive.aspx> section 4. You may need to upgrade your Adobe pdf reader to revision 9.0, a free download link is also available from that web page. Our web site has averaged almost 1,600 hits per month over the past twelve months. The most popular pages are: Systems-Missiles, People, Computers, Legacy-UNISYS, Links/Docs, Computers-30bit, Legacy-LMCO, Computers-32bit, and Engineering. The least visited pages are the Legacy Committee, Burroughs, and International Facilities. LABenson

NORWEGIAN SYTTENDE MAI IS COMING!

The annual Norwegian Syttende Mai lunch is set for Thursday May 14, 2009. The speaker is still to be determined, but as always, it will be a great social and culinary event. It will take place at Casper's Cherokee Sirloin Room, 4625 Nichols Road, Eagan (southeast corner of Cliff and Cedar). Cost and buffet items will be

comparable to last year. The buffet will open at 11:15 and the program will start at 11:45. Reminiscing and socializing afterwards is open-ended.

ROSEVILLE REUNION

If you like talking about the Good Old Days with people that used to work at Univac/Unisys in Roseville, plan on attending the reunion on Friday, April 24th, 2009 at 11:30 a.m. at the Tri-City American Legion at 400 Old Hwy. 8 New Brighton. If you plan on going, please send an email message to Tom Turba at TNTurba@comcast.net so that he can get an estimate of the number of people planning to attend and so you can be put on the distribution list for further information. Maps, parking info, lunch info, etc. will be sent to you. A donation of \$1 per person is requested to cover the hall fee – food and drink costs are additional.

LEGACY NEWS UPDATE

HOW THE ERA DRUM GOT TO THE MINNESOTA HISTORICAL SOCIETY (MHS)

Just how did the early (ca. 1947) magnetic drum from Engineering Research Associates (our founding company) come to be in the possession of the Minnesota Historical Society? Well, the answer is easy. Just cook up an OTS (Order to Ship), specify Ship By “Our Truck”, fill in the Shipped To Address for the MHS (actually their warehouse), throw on an Estimated Value, then slap on enough approval signatures to make it happen. The actual OTS is still included in the MHS file for this museum artifact. A copy of the OTS is shown in Figure 1 on page 6. It was received by the MHS designee on February 20, 1991.

So where did the drum, actually the engineering prototype for the delivered production models, sit from 1947 to 1991? The best guess is that sat forlorn and forgotten in a back corner of Plant 2 (1902 W. Minnehaha in St. Paul) for long after its usefulness had expired. It was lucky to escape the scrap heap or fall into the mitts of “Junkman Jack” (VIP member **Jack Lavers**) whose job it was to dispose of any and all items that were costing the company something for storage space. The actual Shipped From location was the MMC, our Materials Management Center near the Eagandale Business Campus. When Plant 2 was nearing closure, it was probably shipped to the MMC.

A few people realized the true historic value of this early drum and they took steps to save it. But the ones that realized the value were company people and not MHS people. It took major efforts to convince the right people at the MHS of its value and that they should be delighted to accept it. Foresight at that time is being well rewarded now as the drum has a significant place in the MHS Greatest Generation Exhibit due to open May

23rd. The drum will have other Minnesota products as “neighbors” in the exhibit, among them a 1955 Ford from the St. Paul Ford plant and a WWII military support vehicle called a Luber built by Grayco. Thanks to VIP Club members **Tom Lindquist** and **Carole Bidon** as well as MHS curator **Matt Anderson** for helping to reconstruct this story. If any readers can add more details, please contact the author.

THE SPOOK SCOOP

So what was this drum used for? It’s been mentioned before that ERA had its origin in American efforts to break enemy codes during WWII. All this work was of course highly classified, and following WWII as the Cold War started to emerge, it was deemed necessary to continue this type of work. A coded intercepted radio message could of course be recorded, but then it needed to be analyzed to “break” it. This is where the drum medium came into play. The message was transferred to paper tape and then recorded from paper tape onto the surface of the drum. The relatively slow speed of the paper tape reader became the limiting factor in the transfer rate, not the fact that the writing of data to the drum could only happen when the drum was stationary. Frame by frame the drum would be advanced by a worm gear arrangement on the back of the drum. Once the message recording was complete, the motor drive could spin up the drum and the read heads could pick off the data to be analyzed. The “analyzers” became our programmed computers. The message could be scanned and rescanned looking for patterns or other clues to break the code. VIP Club member **Don Weidenbach**, who later went to the customer site to resolve some equipment problems, related the high degree of customer satisfaction. The idea worked.

LEGACY YEAR 3 – STATUS SUMMARY

Year 3 of the Legacy project has demonstrated a strong continuing effort. Our web site has grown tremendously with over 150 different people providing inputs toward the complete documentation of our history. The web site itself is experiencing over 1,500 hits per month, many coming as a result of Google or Yahoo searches. The interest is out there. Our history still has some weak areas that need strengthening and some holes to be filled. To this end we are continuing to seek inputs as well as proceeding with video recordings of various key people to capture their significant memories. We are still discussing what the “final product(s)” of our Legacy efforts will be. Options include a book, a video documentary, or a series of brochures organized by our various pillar business areas.

There is also ongoing weekly research in the archives of Lockheed Martin in Eagan. **Larry Bolton**, **Harvey Taipale** and **Quint Heckert** have been identifying and cataloging documents and photographic images as well as over 200 elusive hardware items. Working in the plant has created a “marriage” or collaboration of retiree

volunteers and interested active employees. Collaboration has also continued with the Charles Babbage Institute as reflected in our Legacy input to CBI's "Hidden History of Computing in Minnesota" lecture series by CBI Director **Dr. Tom Misa** and his staff.

In support of CBI's mission of "preserving the history of information technology and promoting and conducting research in the field," the LMCO has allowed us to send to CBI more than 70 packing boxes of materials covering the decades from the 40s to the 70s. More than 40 of these contain patent archives (applications, attorney correspondence, and resulting action (patent granted, rejected, withdrawn, etc.). CBI has acknowledged receipt and will carefully catalog all the files and send them to permanent storage in their secure climate-controlled underground caverns.

In the public area, our third year of Legacy has been dominated by our involvement with the State of Minnesota Sesquicentennial. Previous newsletter articles have provided detailed coverage, but by way of recap, the highlights were: the presentation of our full-up Unisys/LM history display at the Sesquicentennial weekend on the Capitol Mall (May), subset of history display at Eagan Fun Fest (Jul), reconfigured history display at the MN State Fair for all 12 days (Aug/Sep), and providing artifacts to be sealed in a Time Capsule at the Sesquicentennial Closing Ceremony (Jan 2009). Of course the ERA drum will also soon have public attention as mentioned above. For all the aforementioned efforts we gratefully acknowledge the support provided by Unisys-Roseville and Lockheed Martin-Eagan.

CBI FEATURED MINNESOTA'S "MEDICAL ALLEY" IN ITS LATEST TALK

The latest talk in CBI's "Hidden History of Computing in Minnesota" was provided by Dr. David Rhees (Executive Director of the Bakken Library and Museum). Just how did pioneering work in medical electronics in the 1950s lead to Minnesota's renown as a region for medical devices and electronics? Dr. Rhees' talk began with Earl Bakken's invention of the first wearable cardiac pacemaker utilizing only two transistors, and tracked the growth and diversification of the Minnesota industry, which now produces implantable cardiovascular and neurological devices containing hundreds of thousands of transistors, and sophisticated programming.

Future talks at Babbage are as follows:

- 4/15 UMN's "Gopher"
- 5/20 IBM's "Blue Gene."

The location for the talks is Andersen Library 120 on the University of Minnesota, West Bank. For more info, go to www.cbi.umn.edu and click on "Minnesota's Hidden History in Computing" under SPOTLIGHT.

LIGHTER SIDE

Bubba Had Shingles. Doesn't it seem more and more that physicians are running their practices like an assembly line? Here's what happened to Bubba:

Bubba walked into a doctor's office and the receptionist asked him what he had. Bubba said: 'Shingles.' So she wrote down his name, address, medical insurance number and told him to have a seat. Fifteen minutes later a nurse's aide came out and asked Bubba what he had. Bubba said, 'Shingles.' So she wrote down his height, weight, a complete medical history and told Bubba to wait in the examining room.

A half hour later a nurse came in and asked Bubba what he had. Bubba said, 'Shingles.' So the nurse gave Bubba a blood test, a blood pressure test, an electrocardiogram, and told Bubba to wait for the doctor.

An hour later the doctor came in and found Bubba sitting patiently and asked Bubba what he had. Bubba said, 'Shingles.' The doctor asked, 'Where?' Bubba said, 'Outside on the truck. Where do you want me to unload 'em?'

My wife said "Watcha you doin' today?" I said "Nothing". She said, "You did that yesterday". I said, "I wasn't finished."

Directions to Eagan Community Center. Take Hwy 35E south or north to Pilot Knob Road. Turn left (north) on Pilot Knob Road. Turn left on Central Parkway (which is also the North entrance to Lockheed). The Eagan Community Center is at 1501 Central Parkway.

Directions to Unisys in Roseville. Take Hwy 35W south, or north, to the Industrial Way / St. Anthony Blvd off ramp. If coming north or south on Hwy 35E go west on Hwy 36 which will take you to the Industrial Way / St. Anthony Blvd. off ramp of 35W (Hwy 36 becomes Hwy 35W where it joins Hwy 35W). Go north on St. Anthony Blvd. to Walnut St. (the first street on the right). Turn right and go to Highcrest Road. It is the first place where you can turn left. Past the stop sign, Bldg 3 is on the right. Gate 5 is in the center of the building. From Hwy 280 northbound, use left lane exit just past Cty Rd B for Terminal Road access (St Croix St.). Turn left at Terminal Rd, then turn right at Highcrest Rd to building entrance.
