Wednesday, April 21	Volunteer breakfast and Program	8.30 a.m.

MARCH PROGRAM: EAGAN

Since the 9/11/01 event, ingrained forever in the world's collective memory and sadly revisited all too often in many different contexts, many of us have stood in long and slow airport security lines and wondered who actually won anyway? The terrorists or us? Whether a victory can be declared or not, there has certainly been a huge change in our (air traveling) lifestyle and in our everyday perception of our "comfortable" security. We don't want this for ourselves or for our kids or grandkids, but it is there.

Our speaker for March has dealt first hand daily with activities at the MSP airport. Tim Blaylark is a 12-year veteran with the MSP Airport Police. His topic is "The Airport (MSP), then and now." What changes have been made since 9/11, and what are the methods to be used in the future? This topic is captivating and relevant. Tim is currently the Administrative Training Coordinator, coordinating training for both sworn and non-sworn police staff. His subjects include CPR/First Aid, Safety, Driving and Public Contact. He has worked previously with Ramsey County Juvenile Corrections. His current duties are to create and facilitate training for police officers and cadets that assists them in performing their duties to the highest standards. It's a tough and sometimes thankless job, knowing all the while that every police action is subject to scrutiny from the general public and from relentless news media reporting.

**VOLUNTEER SURVEY FORMS
ARE DUE BY APRIL 7, 2010;
(SEE PAGE 7)
BREAKFAST IS ON APRIL 21st**

APRIL PROGRAM: VOLUNTEER BREAKFAST

Submitted by Bernie Jansen

On April 21st the VIP Club will host the annual Recognition Breakfast for VIP Club members who performed volunteer services in 2009. (Please see the "Volunteer Hours Survey Form for Year 2009" provided on Page 7) The Breakfast will be held at the Tri-City Legion Post in New Brighton. The month of April is National Volunteer Month and our Breakfast honors all VIP Club members who perform volunteer services wherever they reside. We thank all VIP Club members for the many hours of volunteer services you provide each year. Last year, the 146 VIP Club members who responded to our 2008 Survey, donated approximately 28,000 hours to various organizations in Minnesota, Arizona, Illinois, Nevada, North Carolina, Texas and Wisconsin. The number of Club members who responded to last year's Survey was the best in the 15 years that we have been conducting these Surveys – the numbers of members responding was 20% more plus 12% more Volunteer hours were reported than in the 2007 survey.

Seventy members attended the Breakfast last year and we hope this many or more will attend this year. Please note that all members who respond to the "Volunteer Survey" are invited to attend this Breakfast. The Breakfast will be hosted by the VIP Club and will begin at 8:30 A.M. at the Tri-City Legion Post in New Brighton. The entertainment for the Breakfast will feature educational/motivational speaker Joe Brabeck. Joe's topic will be "Volunteer? Who, Me?".

Management representatives from Lockheed Martin and Unisys will be in attendance as our guests.

PRESIDENT'S MESSAGE

From: Tom Turba

Tom Turba, our President, had a stroke on January 22nd. As I write this newsletter message, the Regions Hospital Occupational Therapy and Physical Therapy specialists have evaluated his progress and home 'set up' determining that he can go home before you, the reader, get this Newsletter. Over the next month or two Tom's three problems to work on in therapy are his right eye, his left leg, and his left arm. We've who've seen him in the hospital are encouraged by his positive attitude and efforts to regain physical health. He's even doing some e-mail, one-eyed and one-handed!

So, as Vice President, I either have to or get to write these monthly messages and lead the agenda at the Club's board meetings. First a re-cap of the Club's 2009 highlights: In January we observed the sealing of Minnesota's bi-centennial time capsule which contains a couple of our Legacy artifacts and a report about our 2008 sesquicentennial activities. In February, after some experiments, we opened up electronic newsletter notification/distribution to the membership. In April we moved the April Volunteer Recognition Breakfast to the Tri-City American Legion Post because the plant 4 cafeteria was no longer in operation. In June, our '09 summer picnic was attended by over 100 persons, punctuated with a Members Emeriti award to Chuck and Midge Homan. Chuck coordinated the picnic for the club for many, many years after he had served as Club President. July saw a raise of our membership fees, the first in over a decade. August was marked with the passing of ERA pioneer John 'Jack' Hill at age 99, Jack was supervisor of the ATLAS installation team in the fall of 1950. I'd like to publicly thank Don Weidenbach for representing us at the memorial

service. In September about 50 members came to the Eagan Community Center to hear Dr. Tom Misa present our history beginning with the formation of ERA. In October instead of a pot luck lunch or dinner, we experimented with a pumpkin pie and ice cream social followed by Tom Turba's Cuba slide show. In November, the 2009 board was re-elected to serve during 2010. At our December annual Christmas dinner/dance we honored Warren and Dorothy Becker with the Members Emeriti award, recognizing their dozen years coordinating the Christmas party.

This year was jump started with the January 3rd Pioneer Press article "The almost Silicon Valley" written by Tom Webb. Then on January 20th we set up a Legacy artifact and document exhibit in the Walter Library at the University of Minnesota. This spring semester we're featuring Mr. Webb's article and a theme of memory technology that started with the DRUM MEMORY as the world's first 'hard-drive'.

As we look ahead to the rest of 2010 - our Program Coordinator, Dale Phelps, is arranging several excellent programs in both Eagan and Plant 4. At our February 10th program, nationally acclaimed Charlie Maguire brought his voice, guitar, harmonica, spoons, and jaw harp for a one-of-a-kind-program of songs and stories about Minnesota. Wow, a grand program - perhaps we'll invite him back next year. In August we'll celebrate 30 years of Club existence - we invite all Club members to contact any board member to let him/her know about your 'celebration' ideas.

In closing, I encourage each of you to look at, then process, the 2009 Volunteer Hours Form (page 7) in this Newsletter. If possible, also join us for breakfast and speaker Jim Braebeck on April 21st at 8:30 a.m. - again at the Tri-City Legion Post in New Brighton.

Respectively yours, Lowell A. Benson.

IN REMEMBRANCE

Cleaveland, Mary (Teta) - Age 80, of Edina, MN. Mary passed away peacefully at home Jan. 13, 2010. Mary is survived by husband, Gordon (Joe) who is a Unisys retiree.

Ellerman, Heidi (Nee: Burger) - Age 70 of St. Paul, MN. Heidi passed away January 25, 2010. She is survived by husband, Tom who is a Unisys retiree. Heidi is a VIP Club member

Westlund, Bernard "Bernie" - Born June 15, 1932, passed away Jan. 8, 2010. Preceded in death by wife, Violet "Vi". Bernie retired from Unisys in the late 1980's after almost 30 years of employment.

A CLIP FROM THE PAST

Received from Jeff Leas via Jim Rapinac.

SPORTS RAPP-UP
 By Jim Rapinac
 JUNE 1962

"WHAT DO YOU THINK OF THE MINNESOTA TWINS?"
 Bob Plaschko, NTDS; "Tremendous!" Bob Snetzer, NTDS; "Could be a pennant contender." Gordy Nicolle, NTDS; "Let's toast the winning Twins." Bill Kieffe, Accounting; "Surprising." Bill Lubrecht, NTDS; "Good." John Shanley, NTDS; "Doing pretty good . . . better than expected." Joe Stefani, Commercial; "Got a good team." Larry Rowe, Commercial; "They're in the big leagues now." Harriet Nagy, Commercial; "Sound good, dont they." Dave Lavine, Commercial; "I think they're in second place." Wally Strand, Commercial; "Pretty good, actually." Mary Fitzgerald, Commercial; "I dont think about them much at all."

UNIVAC PEE-WEES DO OK
 Univac sponsored a pee-pee hockey club in the St. Paul recreation league and the youngsters did all right, finishing the season with a 5-1 win-loss record.
 Goalie Mike Funk and forward Pat Funk were named to the all-star team and Dave Bannic received the league's MVP award. Ed Bannic Sr. of St. Paul coached the team and reports that through the efforts of Univac, 30 youngsters were able to play hockey in two leagues this year.

BRIDGE PLAYERS TRIUMPH
 Univac Bridge players Bob Overas and Chuck Wenz won the St. Paul Commercial open pair tournament held recently at the 3M cafeteria. Playing in a 24 hand match, the men annexed individual trophies and also won the traveling trophy which will be retained by Univac for one year. The trophy was presented to Leo Oxman, supervisor, employee relations, at the bridge banquet.

LETTER TO THE EDITOR

From Dick Lundgren

MIS-TAKEN JACKET AT THE O-CLUB LAST DECEMBER?

Did anyone, by chance, go home after the Old Timers Gathering at the Ft. Snelling Officers' Club on December 3rd with the wrong jacket? Dick Lundgren is missing a light windbreaker type jacket which is easily identifiable. It is black, and blue, has "Lockheed Martin" on the front and has two pair of mismatched gloves in the pockets. If you have this jacket, please contact the undersigned. Thank you. Dick Lundgren
rlundgren@aol.com

ANNOUNCEMENTS

BLOODMOBILE INFORMATION

Bloodmobile Information from Marion Scott:

APRIL RED CROSS BLOOD DRIVES.

Thursday, April 8th Lockheed Martin in Eagan needs greeters and servers 9 a.m. to 12 p.m. and 12 p.m. to 3 p.m. Please call Marion Scott at 651-455-7952 to sign-up.

ROSEVILLE GOOD OLD DAYS

April 30th - 10:30 a.m. to 3:30 p.m., mark your calendar for the 'Roseville Good Old Days'. We'll gather in the Atlantis Ballroom of the Mermaid at 2200 Hwy 10, Moundsview. There will be a \$1 registration fee per attendee to cover the groups' room rental. A cash bar will be available and a cash snack bar (probably tacos and/or hot dogs w/chips.) We need an advance head count of attendees and 'snackers', please send a note to labenson@usfamily.net if you plan to attend - state if you'll be eating. Thanks.

WEB SITE REVIEW

This is the second in a series of articles for the 40% of our members who don't have immediate internet access. Three more "Articles for the Month" are summarized hereunder:

In July 2007 we posted David Andersen's "The Invention of Voice Mail". This article focuses on both voice recognition and voice generation developed in a, sometimes secret, laboratory in the basement of plant 8. A Voice Response Unit (VRU) was one of the products which came out of that laboratory. In addition to David, some of the People who worked there over the 14 years of the lab were: Dr. Mark Medress, Hank Ordson, Tim Diller, Toby Skinner, Karen Nieken, John Siebenand, Larry Lutton, Don Anderson (donator of drums to the Legacy project), Ray Hedin, Dean Kloker, Clint Crosby, Art Olive, Jens Peterson, Lowell Benson, and a marketer, Gene Chicoine. Go to your local library and ask for the book, "The Cello Maker and

other stories of the working man" by David P. Andersen. This book includes the 'Voice Mail' article as one of the 16 short stories therein.

In August 2007 we posted "Networking" by John Nemanich. This is a brief history of networking at Unisys beginning with the end of the World War II. It covers some of the Burroughs history, the 3760 developed in the Plant 5 mezzanine, the Communications/Symbiont Processor at Salt Lake City, Sperry U300 CRTs, ..., and the AUTODIN network of the early 60s. "Unisys was an Internet pioneer from the beginning. The Internet has its foundations in the Department of Defense ARPAnet, which had its beginnings in 1970. Unisys had a presence on the ARPAnet in 1970, and by 1971 had two ARPAnet facilities." This article is 15 pages long – it is deserving of becoming one of the many chapters in our future legacy book.

In September 2007 we posted "The Fred Hargesheimer Story" as written by Ed Nelson. Ed gathered previous publications both by and about Fred. He also talked to Fred a couple of times to create the 'Reader's Digest' like story of a man who is/was from the Greatest Generation. There are a few prints of this booklet floating around, check with one of the First Friday luncheon group.

LEGACY NEWS UPDATE

OUR LEGACY AT/WITH THE UNIVERSITY OF MINNESOTA

On a recent visit to the Institute of Technology at the University of Minnesota's Walter Library, the current exhibit by our VIP Club evoked the old interchangeability requirement mantra of "Form, Fit and Function." This exhibit, located on the second floor in the reference desk hall, has an inviting and appealing FORM in that it provides info panels at eye level height and artifacts easily perused in display cases. Even someone with a cursory interest in our St. Paul roots and subsequent evolution, will find eye catchers which will lead them to greater inspection for greater detail. And the FIT is a good one too. It is centrally located a few steps from the reference desk where it is neither obtrusive nor intrusive to the busy student traffic nearby. The FUNCTION is obvious. It attracts visitors to our theme of being the original seedbed of the computer industry in Minnesota, displays the evolution into the currently active Twin Cities firms (Unisys Roseville and Lockheed Martin – Eagan), gives credit to the many spin-off companies that we spawned and to their accomplishments, illustrates our growth genealogy and sample artifacts from our legacy, and emphasizes our strong ties to the University of Minnesota in general and to the Charles Babbage Institute in particular.

We're proud of our collective history and ongoing progress.

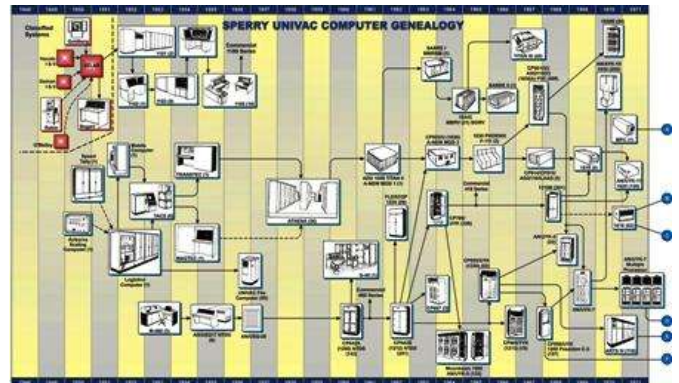

Photo 1 shows the display centrally located in front of the reference desk. At the right is current VIP Club president Tom Turba who collaborated with Vice-president Lowell Benson to set up the display on January 20th. (Who says officers/management can't do real work?) This exhibit will run at least for a year and have three rotations of content in that time.

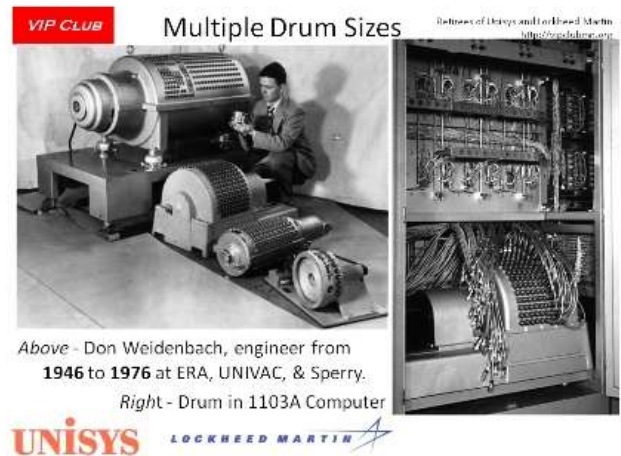

Photo 2 shows the primary side of the display which contains two large posters generated by VIP Club sponsor Lockheed Martin. The family history (ancestor chart) of Unisys is also displayed here with roots going back through Sperry and Burroughs to Remington and other originators. Another interesting "time-lined" chart shows our corporate interactions with the University from 1958 to the present. In the display case are significant hardware artifacts (or photos thereof) as well as newspaper articles, photos, booklets and books drawn from and attesting to our legacy.

Photo 3 shows the first two decades of our computer genealogy as hardware advancements in one generation pushed ingenuity and inventiveness onto the next generation. This process has been uninterrupted and continues today.

An amazing and essentially unknown part of our early history was the development and production of magnetic drums. It has been mentioned in a previous newsletter that one of our very early (ca. 1947) prototype drums is currently on display at the *Minnesota's Greatest Generation* exhibit at the Minnesota History Center in St. Paul. Photo 4 shows engineer Don Weidenbach with various drums of multiple sizes as well as a drum in an 1103 Computer. Such were the granddaddies of today's hard drives.

There is a lot more to the exhibit (posters, charts, photos, artifacts, etc.), and you can read more about it at the VIP Club website (vipclubmn.org) March Article for the Month. Better yet, schedule a campus visit and see for yourself.

MEMBERSHIP ANALYSIS

The 2010 Club Database has 999 entries, down a few percent as some chose not to renew. 867 of us have a Minnesota address, 28 live in Wisconsin, and 22 are in Arizona – however I personally know that a couple of the AZ residents have summer cabins in their home state. Florida with 13, California with 12, and Pennsylvania with 10 are

the next largest in the database state count. The PA entries are two real members and the eight Blue Bell retirees club board members to whom we send electronic newsletters. There is one member each in Georgia, Hawaii, Iowa, Kansas Montana, Missouri, New Hampshire, Nebraska, New York, Ohio, Oregon, South Carolina, Washington State, Wyoming, and Canada. Two members reside in Arkansas, Colorado, Illinois, New Jersey, New Mexico, Nevada, and Utah. Three members live in both North Carolina and Texas. Five in South Dakota and six in Virginia completes the count – members in 30 states and Canada! Sixteen members in the database by their individual choice are not listed in the Club directory. We have an e-mail address for 666 of the 999, a perfect 2/3 with known internet access. 24% have paid the membership dues through 2010, 57% through 2011, 14% through 2012, and 5% beyond 2012. Submitted by LABenson

SAVE THE DATE

NORWEGIAN SYTTENDE MAI

The annual Norwegian Syttende Mai lunch is set for Thursday May 20, 2010. Come and enjoy with fellow Norwegian-Americans and friends, associates, spouses and wannabees. The event, as usual, will take place at Casper’s Cherokee Sirloin Room, 4625 Nichols Road, Eagan (southeast corner of Cliff and Cedar). The speaker, still to be determined, will be delicious and the food will be entertaining. The cost will be \$14.00, unchanged from last year, and the buffet items will be comparable to last year’s popular choices. The buffet will open at 11:15 and the program will start at 11:45. Reminiscing and socializing afterwards is open-ended and “mandatory.” To sign up or for other information, call Dick (Ole) Olson at 507-645-7746 (local call from the Twin Cities) or Dale Phelps at 952-831-7843.

LIGHTER SIDE

EXERCISE FOR PEOPLE OVER 50

Begin by standing on a comfortable surface, where you have plenty of room at each side. With a 5-lb potato bag in each hand, extend your arms straight out from your sides. Hold them there as long as you can. Try to reach a full minute, and then relax. Each day you'll find that you can hold this position for just a bit longer. After a couple of weeks, move up to 10-lb potato bags. Then try 50-lb potato bags, and then eventually, try to get to where you can lift a 100-lb potato bag in each hand and hold your arms straight for more than a full minute.

After you feel confident at that level, put a potato in each bag.

A guy is sitting at the bar just staring at his drink for half an hour when this big trouble-making biker steps next to him, grabs his drink, gulps it down in one swig and then turns to the guy with a menacing stare as if to say, 'What'cha gonna do about it?' The poor guy starts crying.

"Come on man I was just giving you a hard time," the biker says. "I didn't think you'd CRY. I can't stand to see a man crying."

"This is the worst day of my life," says the little guy between sobs. "I can't do anything right. I overslept and was late to an important meeting, so my boss fired me. When I went to the parking lot, I found my car was stolen and I don't have any insurance. I left my wallet in the cab I took home. I found my wife in bed with the gardener and my dog bit me.

So I came to this bar trying to work up the courage to put an end to my life, and then you show up and drink the darn poison”.

Engineer says: A number of different approaches are being tried

Engineer means: We are still grasping at straws

Engineer says: We're working on a fresh approach to the problem

Engineer means: We just hired three kids fresh out of the university

Engineer says: Close project coordination

Engineer means: We know who to blame

Engineer says: Major technological breakthrough

Engineer means: It works OK, but looks very hi-tech

Engineer says: Customer satisfaction upon delivery is assured

Engineer means: We are so far behind schedule that the customer is happy to get it delivered

Engineer says: Preliminary operational tests were inconclusive

Engineer means: The darn thing blew up when we threw the switch

Engineer says: Test results were extremely gratifying

Engineer means: We are so surprised that the stupid thing works

Engineer says: The entire concept will have to be abandoned

Engineer means: The only person who understood the thing quit

Engineer says: It is in process

Engineer means: It is so wrapped up in red tape that the situation is hopeless

The VIP Recognition Breakfast will be at 8:30 a.m. on April 21st at the Tri-City American Legion. Your Volunteer Survey Forms must be received by April 7th for Breakfast Program 'names' listing.

Directions to Eagan Community Center. Take Hwy 35E south or north to Pilot Knob Road. Turn left (north) on Pilot Knob Road. Turn left on Central Parkway (which is also the North entrance to Lockheed). The Eagan Community Center is at 1501 Central Parkway.

Directions to Unisys in Roseville. Take Hwy 35W south, or north, to the Industrial Way / St. Anthony Blvd off ramp. If coming north or south on Hwy 35E go west on Hwy 36 which will take you to the Industrial Way / St. Anthony Blvd. off ramp of 35W (Hwy 36 becomes Hwy 35W where it joins Hwy 35W). Go north on St. Anthony Blvd. to Walnut St. (the first street on the right). Turn right and go to Highcrest Road. It is the first place where you can turn left. Past the stop sign, Bldg 3 is on the right. Gate 5 is in the center of the building. From Hwy 280 northbound, use left lane exit just past Cty Rd B for Terminal road access (St Croix St.). Turn left at Terminal Rd, then turn right at Highcrest Rd to building entrance.
