AUGUST PROGRAM

An Outing on the St. Croix

Save the date Wednesday, August 17th, 2016 for a luncheon and sightseeing cruise on the St. Croix River from Stillwater, MN. We will be boarding at 11:00 AM and set sail at 11:30 AM for a 2-hour cruise. We'll be off the river by 2 PM, plenty of time to beat the Highway 36 traffic back into the cities. To sign up, fill out the **page 5 form** and send it with payment **before August 1st**. The boat will depart from the dock for the St. Croix Boat and Packet Co. at 525 South Main St. There are several pay parking lots in the area.

The cost is \$15 per member and includes lunch on board. There is a cash bar available for liquid refreshments. We do have to pre-pay for our group two weeks in advance thus we've set our registration deadline as August 1st. Invite your friends to cruise with us. Remember to bring your camera, sun screen, and tourist anticipation of the beautiful Minnesota and Wisconsin trees, rocks, and shorelines. Arrangements by Tom Turba.

SEPTEMBER PROGRAM

Electioneering, etc.

Join us in the UNISYS Eagan visitor's conference room adjacent to the north visitors' entrance at 7 PM on September 14th. Our featured speaker will be Dr. Kathryn Pearson. She is an Associate Professor of Political Science at the University of Minnesota. She received her Ph.D. from the University of California, Berkeley in 2005. Ms. Pearson specializes in American politics; her research and teaching foci are on the United States Congress, elections, women and politics, and political parties. She has published several book chapters and her research has appeared in *The Journal of Politics*, *Perspectives on Politics*, *Legislative Studies Quarterly*, *Politics & Gender*, and *Political Research Quarterly*. Kathryn is a recipient of the Morse Alumni Award for Outstanding Contributions to Undergraduate. In 2002-2003, Dr. Pearson was a Research Fellow at The Brookings Institution and from 1993 to 1998 she worked on Capitol Hill as a Legislative Assistant for two congresswomen, one Democrat and one Republican therefore she is quite bi-partisan.

Some of you may remember the lively post-presentation discussions after she spoke to us in September 2012. *Bring your questions*; i.e. what are the key issues facing Hillary and Donald over the next four years? Or, as illustrated by this icon – what is different today compared to 60-years ago? Thanks to Dick Lundgren for the arrangements with Dr. Pearson. Thanks to my wife for this relic of our youth!

PRESIDENT'S MESSAGE

Using the information received from the member's survey and other points of discussion at our VIP Club executive board meetings we are looking at ways to better serve the club membership outside the Twin City area. It looks like the events/programs that are social in nature are the most popular. Some examples are the Annual Reunion Picnic, Roseville's Good Old Days, the Old Timers gathering, the River Cruise and the Christmas Dinner Party. Obviously the members that live near the metropolitan area are able to attend many of our planned events. Members who live further away, and we have significant numbers in the Arizona and Florida areas, find it harder to attend them. Along with those that have permanent residences in these areas additional members spend significant time there during the winter months. We are looking for a way to sponsor an annual event for these club members but need to find a focal point (both an individual/s to coordinate and a convenient location to gather) to make it work. I will be contacting some candidates in the near future but if you are interested please let me know. *Keith Behnke*, Club President.

3. Webmaster (Director) to convert .docx format newsletters to .pdf format, upload to the web, and then transmit electronic notifications to members with email addresses. Also, do fortnightly web page updates based on inputs from Legacy Committee members, Board members, and occasional notes from browsing public.

6. Legacy Committee co-chair to coordinate gathering of new artifacts and to schedule occasional volunteer meetings in support of the Lawshe Memorial Museum, the Charles Babbage Institute, and the *tbd* destination of the UNISYS, Roseville Shadowboxes.

Phasing out board members Bernie Jansen (20+yrs), Frank King (5-yrs), Joe Schwarz (17-yrs), and Lowell Benson (11-yrs) are willing to affect an orderly transition of these six activities to new volunteers during the November '16 to January '17 time period. REPORTS, LEGACY ACTIVITIES

We have a web site? This is one of the comments received in response to the December Survey. YES; the VIP Club has and has had a web site. In 2002, Joe Schwarz created a Yahoo hosted Club web site. In February 2006, Lowell Benson started a Legacy web page on his personal site and then transitioned that page to a Microsoft hosted (free) Legacy site. In the fall of 2007 the two sites were merged as the <http://vipclubmn.org> URL. In 2011, Microsoft ended free websites so we transitioned to our current host, <http://www.webhostinghub.com>.

This year we have added two features to benefit our readers: 1) The home page, section 3 has a google mapping function to provide directions to the next event from the reader's entered address. 2) The home page and the Contact-Links page have a Google search function so that readers can quickly find who/what is mentioned where or who wrote what on which page.

Our site design structure and rules are described on page zero, <http://vipclubmn.org/SiteMap.html>. The primary page {Home/Club} has introductory information and sub-tabs associated with the Club business and activities. What would you like to read?

Between the Club page tab and Contacts/links tab are our Legacy topic selection tabs with the theme: Our IT LEGACY consists of PEOPLE who ENGINEERED COMPUTERS and SYSTEMS at FACILITIES in Minnesota and throughout the world. Over two hundred people have contributed items to this computer history anthology. There are a couple of pages with Blue Bell stories too. We still have room for your stories, either mini-career summaries or project stories. Submitted by *LABenson*
